

Dawon Lee

NLP RESEARCHER · SOFTWARE DEVELOPER

✉ dawon337@gmail.com | 🌐 leadawon | 💻 dawon-lee-547943257

Summary

Undergraduate student in the Department of Computer Science and Engineering at Dongguk University with a strong interest in Natural Language Processing (NLP). Experienced in machine learning, software development, and research projects. Passionate about continuous learning and exploring new technologies. Proven ability to conduct research, develop innovative solutions, and work effectively in collaborative environments. Skilled in Python, Transformers and PyTorch. Enthusiastic about contributing to AI advancements and solving complex problems.

Education

B.S. in Computer Science and Engineering

Dongguk University

COLLEGE OF ENGINEERING

Mar. 2019 - Present

- Major GPA: 4.25/4.5
- Overall GPA: 4.27/4.5
- Expected graduation: Feb. 2025

AI Natural Language Processing Specialist Training Program (KDT)

Ministry of Employment and Labor,
Goorm

MINISTRY OF EMPLOYMENT AND LABOR, GOORM

Oct. 2022 - Feb. 2023

- Corporate tailored national strategic industry training program.
- Focused on training practical talent in digital new technology.

Internship

Machine Learning Lab

Dongguk University

RESEARCH INTERN

Mar. 2023 - Present

- Conducted research on natural language processing and machine learning.
- Developed and implemented algorithms for various NLP tasks.

Projects

Emergency_Response_Manual_System

Dongguk University, dootawiz Inc.

NLP, QA

Ongoing

- Developing a system to assist 119 emergency responders by showing emergency room manuals during calls with dispatchers.
- Utilizing sLLM and DPR for real-time response guidance.

2024-SolutionChallenge-sMiLe

Google

FRONTEND, FLUTTER, GEMINI

Feb. 2024

- Created a mobile application for mental health support.
- Used a checklist to assess depression stages and provided stage-specific care using Gemini API.
- Used Flutter for frontend development.

ER_SENTINEL_CtrlCV

Korea Internet & Security Agency,
KISA

BACKEND, SPRING BOOT

Jul. 2023

- Implemented a backend system for emergency response management.
- Used Spring Boot framework for development.

jeju_dialect_translator

Dongguk University

NLP, TRANSLATION

May. 2023

- Developed an AI model to translate Jeju dialect to standard Korean.
- Implemented an API server and integrated with ChatGPT API to allow conversations in dialect.

building_segmentation_dgdr

Dongguk University, National Center
of Excellence in Software

CV, SEMANTIC SEGMENTATION

Aug. 2023

- Developed a semantic segmentation model for building detection in satellite images.
- Achieved high accuracy and participated in a related competition.

gpt2-dialogue-generation-pytorch

NLP, GENERATION, RESEARCH

- Developed a dialogue generation model using GPT-2.
- Published research paper on response generation using dialogue summary.

Dongguk University

May. 2023

machine_reading_comprehension_kor

NLP, QA

- Implemented a machine reading comprehension system for Korean.
- Utilized transformer-based models for question answering.

Ministry of Employment and Labor,

Goorm

Jan. 2023

text_classification_yelp

NLP, CLASSIFICATION

- Developed a text classification model using Yelp reviews.
- Achieved high accuracy by fine-tuning BERT model.

Ministry of Employment and Labor,

Goorm

Dec. 2022

Honors & Scholarships

4th Place, AI Contest 2023

COMPETITION

- Achieved 4th place in a building segmentation competition.

Dongguk University, National Center

of Excellence in Software, DAICON

Aug. 2023

Dongguk University Scholarship

SCHOLARSHIPS

- Major Excellence Scholarship (Dec. 2019)
- Merit-Based Scholarship (Mar. 2020)
- SW Specialized Merit Scholarship B (Mar. 2020)
- Dongguk Talent Development Scholarship (Mar. 2024)

Dongguk University

2019 - 2024

Extracurricular Activities

Hansori

EXECUTIVE

- Executive of the traditional Korean music club at Dongguk University.
- Organized and planned performances.

Dongguk University

Mar. 2019 - Feb. 2024

Davinci

PARTICIPANT

- Participated in TRIZ education and mentoring programs under the Innovation Center for Engineering Education.

Dongguk University

Nov. 2019 - Nov. 2020

Machine Learning Lab

LAB INTERN

- Conducted research and development on various NLP projects.
- Participated in academic seminars.

Dongguk University

Mar. 2023 - Feb. 2025

GDSC

GENERAL MEMBER

- General Member of the Google Developer Student Clubs at Dongguk University.
- Presented at technical seminars.
- Participated in the Solution Challenge.

Google

Sep. 2023 - Sep. 2024

Farm System

ADVANCED

- Engaged in a farm system project at Dongguk University.

Dongguk University

Jun. 2024 - Feb. 2025

Skills

Programming Languages

Python

Frameworks

PyTorch, Transformers

Tools

AWS Sagemaker, Git

Languages

Korean (Native), English (Intermediate)

A Study on Response Generation Using Dialogue Summary

Korean Institute of Information
Scientists and Engineers (KIISE)

DOHYUN CHA, DAWON LEE, JIHIE KIM

May. 2023

- Proposed a bart model framework to generate responses by summarizing dialogue history.
- Implemented using ChatGPT to summarize and utilize dialogue context.
- Showed improved performance over traditional methods in generating context-aware responses.

Extracting, Retrieving Persona and Generating Responses for Long-Term Open-Domain Dialogue

IEEE Transactions on Audio, Speech
and Language Processing
(Submitted)

DOHYUN CHA, DAWON LEE, JIHIE KIM

Jun. 2024

- Proposed ERGPerDialogue framework for persona-based dialogue response generation.
- Used Llama 2 for persona extraction and MSC dataset for training DPR model.
- Outperformed baseline models in Rouge-1 metric.
